DIEBOLD OPTEVA® 720

ADVANCED-FUNCTION, LOBBY ATM

Revenue-generating branding opportunities in a contemporary lobby unit

Available in Front-load Lobby, Rear-load Lobby or Vestibule Models

Multi-channel software – Agilis® software, Diebold's high-performance solutions platform, performs in a cross-vendor environment and connects to web applications, back-office systems and other customer channels to maximize your brand, personalize transactions and deploy new functionality quickly.

Security solutions – The enhanced security features integrate the latest in fraud-prevention technology to reduce your exposure while offering your customers an increased sense of security.

Outstanding automation – An Intelligent Depository Module® accepts stacks of up to 30 envelope-free checks while an integrated dispenser offers a single entry point for presenting and receiving envelopes. Want more? Offer deposits for up to 50 notes.

Maximum availability – Ensure maximum availability with Opteva® 720's five-cassette capacity, which is supported by intelligent modules that forecast maintenance needs so you can respond proactively.

Flexible installation – Featuring either front- or rear-load configurations, Opteva 720's flexible design provides for efficient use of valuable floor space.

Ultimate reliability – Opteva technology delivers one of the highest levels of uptime in the industry. That means consistent convenience for customers and peace of mind for you.
